
Three Economical Ways to Purchase Multiple Copies

Lab Packs (FocusPacks)

Now you can outfit an entire lab of 12 computers with any program in this catalog for only three times the regular price. Our FocusPack contains 12 complete sets of program disks, plus one set of collateral material that comes with the program.

Suppose, for example, you would like to order one FocusPack of "The Earthquake Simulator" for the normal price of $99. A FocusPack would then be 3 x $99 or just $297 for one dozen double-sided disks, one Teacher's Lesson Planner, and one Student Workbook ... all neatly wrapped in a handy 3-ring binder. So, not only do you get each disk for as little as $24.75, but you'll have all the materials you need to effectively prepare and conduct your daily lessons.

Network Purchases

(For use in one school building) Virtually all of our programs are network compatable and are available at 3 times the normal retail price. Since network versions are sold on a firm-purchase basis only, here is what to do if you wish to evaluate a program on-approval:

1. Order a non-network version of the program for your evaluation.
2. Return the program to us within 30 days.
3. Place a firm order for the network version at 3 times the normal price, if you decide to purchase the product.

Site Licenses

Now you can purchase the rights to duplicate any of our products in one building or throughout your district for a one time site licensing fee. It's really simple to do, and very economical for your district.

For more information about Lab Packs, Network Purchases, or Site Licenses, call your dealer or Focus Media's Customer Service Department, TOLL FREE.
